COMPANY PROFILE

YUANHU
VALVE

浙江远沪阀门有限公司
ZHEJIANG YUANHU VALVE CO., LTD.

专业生产销售国标/美标/球阀/截止阀/止回阀
/球阀/蝶阀/过滤器等管道阀门

CUSTOMER TRUST

Zhejiang Yuanhu Valve Co., Ltd. is a professional valve manufacturer integrating R&D, casting, production, sales and service. The company has strong technical force, and the company has all kinds of advanced valve processing equipment, perfect physical and chemical testing methods and performance testing equipment. And formed a valve production, learning and research consortium with scientific research institutions. It has enhanced the research and development capabilities of enterprise products, the comprehensive strength of technological innovation and enterprise management.

MANUFACTURING STRENGTH

The company has a complete CAD computer and a three-dimensional design center, with the tenet of "survive by quality and develop by technology". Production in strict accordance with the ISO9000 international quality management system. Now it has obtained high-tech enterprise, CE certification, ISO9001 international quality system certification, ISO14001 environmental management system, OHSAS18001 occupational health and safety management system, TS pressure pipeline original manufacturing license, SIL functional safety certification, China City Gas Association, urban sewage discharge and drainage Pipe network license, China Construction Metal Structure Association, China Huadian Group Corporation Tendering and Procurement Network Group Supplier.

PRODUCT RANGE

The company can produce gate valves, ball valves, globe valves, butterfly valves, check valves, and non-standard valves for various purposes, pressures, diameters and temperatures in accordance with the national standard GB, British standard BS, American standard ANSI, API, AWWA, MSS, and German standard DIN. valve. The company has rich experience in valve production, excellent equipment, advanced technology, strong technical force, perfect testing methods and enthusiastic service, and is well received and trusted by users at home and abroad.

EXCELLENT QUALITY

The company's tenet "customer first, integrity-based" and adhere to the implementation. The company's product market brand rapidly climbed. We will adhere to the principle of "reciprocity, mutual benefit" and integrity first, welcome domestic and foreign merchants to negotiate and patronize, and sincerely invite people of insight to join us and guide us to create a better tomorrow.

APPLICATION AREA

Petroleum

Architecture

Biochemistry

Metallurgy

Chemistry

Electricity

Hydraulic

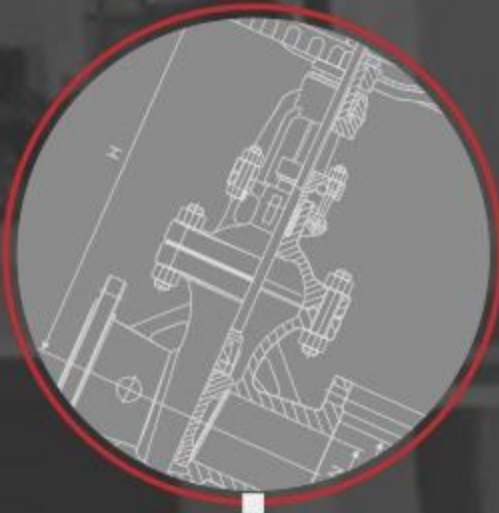

Environmental

With China's long-term high-speed economic growth demand, the valve industry has become an important basic industry of the national economy. It plays an important role in petroleum, natural gas, chemical industry, power station, metallurgy, national defense, pharmaceutical industry and long distance pipeline projects. However, energy saving and resource saving is an urgent issue for heavy industry. Manufacturing industry is also facing to modify the original equipment and update, elimination of high energy consumption and environmental pollution of heavy equipment, how the valve industry development towards a higher level, energy conservation, environmental protection and variety structure optimization is increased, this requires a large number of leading technology products, energy conservation and emissions reduction of valve product is more potential market.

Yuanhu valve pays attention to technological process, improve product quality;
 In the manufacturing process meticulous, cautious and conscientious;
 In the quality and service of the road has been trying to move forward...
